

A Beautiful Smile Starts with invisalign®

Your smile says a lot about you... if you let it!

The Invisalign system has been the choice for over a half a million people who wanted amazing new smiles. It's **virtually invisible, removable and comfortable**. And now straightening your teeth doesn't have to disrupt your lifestyle!

Invisalign is the easy way to straighten your teeth—**without braces**. This exciting, new technology uses a series of clear, customized, removable “aligners” to gradually reposition your teeth.

The aligner is a thin, strong medical grade of plastic, that looks similar to tooth-whitening trays, but is custom-made for a better fit to move teeth. It's nearly invisible when worn and has actually been described as a “contact lens” for your teeth!

This proven technology can give you a smile to be proud of—virtually invisibly and comfortably. Plus, you don't have to give up your favorite foods during treatment.

No one will even know you're wearing Invisalign aligners unless you tell them!

Best of all, there's no guesswork. 3-D computer technology allows you to view your own virtual treatment plan before you start—so you can see just how your beautifully straightened teeth will look when your treatment is complete.

“...no one will even know you're wearing invisalign...”

invisalign® Proven Effective... Worldwide!

The Invisalign® system has been proven effective in orthodontic and dental practices worldwide, Invisalign has been effective at

straightening teeth. Nine out of ten patients are "very or extremely satisfied" with their Invisalign® experience.

Over a half a million people, including teens and adults, now

enjoy amazing smiles thanks to Invisalign®.

The number of satisfied patients grows daily. Maybe it's time you were one of them. Find out how we can help you. Call now!

Once you decide to improve your smile... The Rest is Easy!

Getting started couldn't be simpler.

The path to your beautiful Invisalign® smile begins right here in our office.

Step 1: Pick up the phone

Schedule a FREE initial consultation. We'll evaluate your personal situation and answer all of your questions.

Step 2: We'll map out your treatment plan

First, we'll take X-rays and impressions of your teeth. We'll then use 3-D computer imaging technology

to map out and simulate your complete treatment plan from the initial position to the final position of your teeth.

Step 3: Your aligners are created

Your treatment plan is converted into a series of precisely customized aligners that will gradually move your teeth into an incredible new smile.

Step 4: Wear your aligners

You'll wear each set of aligners in approximately two-week increments. The aligners gradually move your teeth into position, and at the end of each two-week period, you "graduate" to the next set of custom aligners.

Aligners can be removed **when you eat, brush and floss.**

Step 5: Smile more!

You'll come into the office about every six weeks for progress checks. Each case is a little different, however on the average, treatment lasts about a year. Some patients actually start seeing results in as little as six months. Upon completion, you can show the real you with your radiant **New Smile!**

**It's that easy.
Give us a call today!**

"I definitely smile a lot more..."

"...even though I'm still in the process, it has given me more confidence. It's given me something to look forward to. I feel good about

myself. I feel good that I have taken the steps to get these braces."

-Daniel, Age 38, Chauffeur

A Clear Choice...

Invisalign straightens your teeth, nearly invisibly, right before your eyes. If you're a candidate for Invisalign treatment, your teeth will move, little by little, toward the smile you have always wanted.

As your trained and certified Invisalign provider, once we've determined that you're a candidate for Invisalign, we can correct imperfections in a wide range of smiles, including:

- Overly crowded teeth
- Widely spaced teeth
- Overbites • Underbites
- Crossbites

If you qualify for Invisalign, whether your teeth are crowded, too far apart or have shifted since wearing braces, you'll have a new reason to smile!

"My Teeth Look GREAT!"

"Using Invisalign was very easy and put me at ease, knowing that I was not going to have the pain of wires and brackets in my lips. I can now talk and smile with confidence, thanks to Invisalign!"

- Doug, age 17, Student

"I am THRILLED!!"

"I am absolutely, positively thrilled. The fact that I was done with it in less than a year, and really had no inconveniences whatsoever, makes me wonder why I even hesitated."

- Vivian, age 53, Nurse

The invisalign® advantage

Invisalign is clear. You can straighten your teeth without anyone knowing.

Invisalign is removable. You can eat and drink what you want during treatment.

Invisalign promotes oral health. You can brush and floss normally to maintain healthy gums and teeth.

Invisalign is comfortable. There are no sharp edges or abrasives to irritate your mouth. Aligners move your teeth gently over two-week periods so there is little, if any, discomfort.

Invisalign saves time. The need for frequent adjustments is eliminated since there are no metal wires. Depending on the complexity of your case, the average treatment time is about a year.

Invisalign is truly an exciting addition to the orthodontic choices available to straighten your teeth. Find out why over a half a million people prefer Invisalign.

Schedule your FREE "Invisalign Evaluation" TODAY!

The FDA has cleared Invisalign as a Class II medical device for orthodontic treatment.

invisalign® is Made to Fit Lifestyles like Yours!

The good news is the Invisalign system doesn't require you to change your busy lifestyle. With the comfort and convenience of customized clear plastic aligners, Invisalign won't hold you back.

You can look your best while you smile with confidence during and after your treatment. After all, most people won't even notice you're wearing aligners. Now, nothing needs to get in the way of your radiant, healthy smile.

You can be as active as you'd like to be:

- Remove aligners for special events, business meetings or social gatherings
- Remove aligners whenever you eat
- Ease of oral hygiene means you can enjoy a healthier smile
- Feel more confident everywhere you go
- No worries about mouth injury while playing sports
